**18. What advice would you give to another Gustavus student who is planning to take this course?**

- Student 1

Know that there are a lot of things going on at once and fine details. So be organized in your notes and don't worry about being an expert on everything all at once. Remember when you're doing specific tasks what the overview of the class is about and what the individual assignment is contributing to it.

- Student 2

Come to class and take notes and it will be easy and very interesting.

- Student 3

Take it with Professor Oulatta, he's very good.

- Student 4

Take notes

- Student 5

- Student 6

don't procrastinate the homework and get it done because he is willing to help you with the homework so you can get the most credit. also take as much notes as possible to study and prepare for papers

--Student 7

Be ready to take notes and pay attention

--Student 8

**19. What advice would you give when this instructor next offers the course?**

--Student 1

--Student 2

Maybe add more interactive lesson, could be more engaging. However it was great and I don't think anything needs to change.

--Student 3

I don't have any, I thought it was very well run. Again, I took it during J term instead of a semester, so the class was a little bit different.

--Student 4

Better handwriting.

--Student 5

I think it would be really helpful if the lecture slides were posted to Moodle where students could review them after class.

--Student 6

i think you did a great job teaching this course in a short amount of time.
