### Please identify some specific things your instructor did that helped you learn in this course.: Moon Oulatta

- Best teacher
- Revision classes before exam
- He genuinely wants the students to understand the subject and provide means for getting the knowledge across to the students without burdening them. He is also very enthusiastic on the subject and interacts with the students a lot by providing feedback for questions or illustrating the topic with real data. Overall, he was a great support to me.
- Nothing, he kept it simple.
- Providing review for exams.
- Moon provided a considerable number of notes throughout the semester but would never post them for personal use.
- He made sure if you went to class everyday and payed attention you would have an A
- the slides talking about a specific topic, helped me to understand the course in depth
- Posting the lectures so I could review them.
- He was very high energy and always happy to be teaching which made it better and easier to be in his class.
- Article review

**Please give your instructor some practical recommendations on ways to improve student learning in this course if you have any suggestions.: Moon Oulatta**

- NA
- More in class activities ,games and maybe practice quiz
- My only suggestion would be for him to take time to wait for the students to fully answer his questions.
- I don't have any.
- Posting PowerPoint slides after lectures instead of waiting weeks and weeks to do so, grading assignments and exams efficiently instead of waiting weeks and weeks to do so, answering emails efficiently (within 48 hours is reasonable), etc.
- Post more notes within Blackboard and maintain a tight schedule throughout the semester. There were many times I came to class and learned nothing because we already discussed that lecture in prior lectures.
- responding to emails, Ive tried to email but haven't gotten 1 response all semester
- assign students homework before tests so that the students understands where they are weak and work on it before exams.
- You can ramble on a little too much where you would lose my focus.
